

# CLOUDWALKER FLUTES

My journey with the NA flute began with a love of its music. Many years later, that love progressed into a passion for creating the instrument capable of producing that music. Each flute is a one-of-a-kind original signed by me. Each is hand made, using hand and power tools. My flutes are tuned to a pentatonic scale beginning with the flutes lowest or fundamental note. They generally play 1 octave + 2 to 3 notes above the octave.

Many types of domestic and exotic woods are available. Custom totems available upon request. Custom totems, colored end caps and mouth pieces, stone inlay as well as pyrography available for an additional charge. Please contact me for a description of available designs and prices. Each flute comes with a protective bag and fingering chart.

Cloudwalker Flutes are based on a traditional Native American flute design dating back to the 1870's. Though I am not Native American, I believe the instruments I create, are in some way, Native in spirit and heart.

*Hear the sounds of nature*

# PRICE LIST
